SAC Clutch Installation/Removal Kit

Reference : OM 0639

Item name	SAC Clutch Installation/Removal Kit
Bar code	3700461493218
Introduction	Today's vehicles are often fitted with SAC (Self Adjusting Clutch) clutches. These clutches are self-adjusting, thanks to an automatic adjustment mechanism that compensates for the increasing play created by clutch disc wear. This guarantees constant clutch release force over time, and optimum comfort.
Text	Care must be taken when assembling these clutches, as improper installation could deform the clutch housing or cause the clutch to malfunction. To avoid these problems, SAC clutches must be installed and removed using a special tool.
Contents	Comes with a Ø 15.8 mm centering jig for the PSA DV10 engine and a centering jig for Puma and Opel engines.
Applications	Applications : Covers most vehicles equipped with SAC clutches
