

High-pressure kit

Reference : AC 0801

Item name High-pressure kit

Bar code 3700461498565

Introduction This kit enables you to test diesel Common Rail pressure in complete safety, both in-line ("in series with the engine running") and direct from the pump (engine start-up). In conjunction with our digital pressure tester master kit (AC0800), it enables highly accurate tests to be carried out. The hoses included in the kit will enable measurement and diagnosis of most Common Rail Engines.

Product highlight 2000 bar sensor

Contents Contents :
- 2000 bar sensor (2m)
- sensor plug for direct pump pressure,
- 2 M12x150 hoses for most common applications.
- recovery tank

Warranty period 2 years
