10T mechanical & hydraulic CV JOINT pushers

Reference : OH 0569

Item name	10T mechanical & hydraulic CV JOINT pushers
Bar code	3700461400872
Introduction	Multi-solution gimbal box, ideal for removing components linked to the running gear and braking system.
Text	Use accessories to pull the flange to operate it with the inertia weight. The 10-ton hydraulic cylinder is designed to meet the most demanding requirements. It can be used for the following operations : - checking or replacing wheel bearings - transmission intervention, constant velocity joint bellows, rear brake shoe repair, rear drum inspection, etc.) These important, regular interventions consume time and energy. With this hydraulic wheel hub remover, you'll be able to achieve twice the result with half the effort, while making your work safer.
Product highlight	Effortless operation
Contents	Contents: - hydraulic cylinder with a capacity of 10 metric tons - winch screw - flyweight 4.5 kg, thread Ø 20 mm x 200
Applications	Applications : VW, Audi, Seat, Skoda, Opel, Volvo, Fiat, Renault, Peugeot, Citroën

	For four- and five-bolt hubs
OEM codes	T10520A
Warranty period	2 years
Maximum load (T)	10 T
Tariff code	Tariff Normal (TN)
Warranty Procedure	EASY
