

Atex fuel drainer

Reference : OP 3528

Item name Atex fuel drainer

Bar code 3700461400933

Introduction Designed for draining following a fuel filling error (gasoline mistaken for diesel), removing a submerged fuel pump, changing or checking the fuel gauge, flushing the tank...

Text 45-liter mobile tank (on wheels) for complete emptying of fuel tanks and lines (gasoline and diesel).

Emptying can be carried out via the tank filler neck or fuel lines.

Supplied with two anti-static ground cables, an overflow hose and 3 fuel probes.

Meets ATEX standards:

ATEX (Explosive Atmospheres) regulations stem from two European directives (2014/34/EU or ATEX 95 for equipment intended for use in ATEX zones, and 1999/92/EC or ATEX 137 for worker safety).

It applies in France by virtue of compliance with the requirements of the Labor Code. ATEX regulations require all company managers to manage the risks associated with explosive atmospheres in the same way as all other occupational hazards.
