Insulated pliers with premium bent half-round nose

Reference : OE 0525

Item name	Insulated pliers with premium bent half-round nose
Bar code	3700461406980
Introduction	1000V insulated clamp.
Text	Allows easy bending of electrical wires. Suitable for work requiring precise gripping and cutting. Better access to work area thanks to angled jaws. Induction treatment of cutter forging for long jaw life. Insulating reinforcements at the ends of the arms to protect against shocks. Beak gripping surface with soft ridges (prevents damage to cables). Color differentiation between the 2 insulating layers enables visual inspection of the entire tool to confirm its suitability for use in electrical environments, as recommended by UTE18-510 and IEC 60900. WHEN THE ORANGE LAYER IS DAMAGED AND THE RED LAYER IS VISIBLE = DANGER. - The thickness of the insulating layers is determined by the weight of the tools to ensure optimum resistance. - Tools are designed to withstand extreme temperatures from -20 to +70°C. - Each tool is tested to 10,000V AC and approved to 1000V AC for use on low-voltage networks. - Several checks at every stage of production, in addition to IEC 60900 standard checks.

Product highlight	Safety: wear indicator Lifetime warranty
Specifications	Specifications: - Standards: NF EN 60900 / IEC 60900 / NF ISO 5743 / NF ISO 5744 / NF ISO 5745 - Cutting edge hardness: 60 HRC - Cutting action: axial cut - Jaw interior: grooved - Jaws: half-round, angled at 45° - Cutting capacity: medium-hard steel wire (160 kg/mm²): 1.6 mm - High-performance steel: chrome vanadium
Warranty period	lifetime
Voltage	1000V
Length (mm)	205 mm
Product weight (kg)	0.20 kg
Tariff code	Tariff Normal (TN)
Warranty Procedure	EASY
