Isolated_phone_clamp_with_long_beaks_half_round_premium_rights

Reference : OE 0526

Item name	Isolated_phone_clamp_with_long_beaks_half_round_premium_rights
Bar code	3700461406997
Introduction	Allows easy bending of electrical wires. Suitable for work requiring precision gripping and cutting. Nozzle length adapted to reach hard-to-reach parts. Chrome-plated finish for high corrosion protection thanks to a succession of 5 baths. Induction treatment of cutting edge forging for long jaw life. Insulating reinforcements at arm ends to protect against impact. Beak gripping surface with soft ridges (prevents cable damage).
Text	Pliers with long, straight, half-round tips. Insulated 1000V. The 2 insulating layers are color-coded to allow visual inspection of the entire tool for proper use in an electrical environment, as recommended by UTE18-510 and IEC 60900. WHEN THE ORANGE LAYER IS DAMAGED AND THE RED LAYER IS VISIBLE = DANGER. - The thickness of the insulating layers is determined by the weight of the tools to ensure optimum resistance. - Tools are designed to withstand extreme temperatures from -20 to +70°C. - Each tool is tested to 10,000V AC and approved to 1000V AC for use on low-voltage networks. - Several checks at every stage of production, in addition to IEC 60900 standard checks.

Product highlight	Safety: wear indicator Lifetime warranty
Specifications	Specifications: - Standards: NF EN 60900 / IEC 60900 / NF ISO 5743 / NF ISO 5744 / NF ISO 5745 - Cutting edge hardness: 60 HRC - Cutting action: axial cut - Jaw interior: grooved - Cutting capacity: Medium-hard steel wire, 160 kg/mm²: Ø1.6 mm - High-performance steel: chrome vanadium
Warranty period	lifetime
Voltage	1000V
Length (mm)	205 mm
Product weight (kg)	0.24 kg
Tariff code	Tariff Normal (TN)
Warranty Procedure	EASY

***Public price Exl. Tax : €52**
