

## 1/2" wheel intervention socket set (10pcs)

Reference : OM 7027

**Item name** 1/2" wheel intervention socket set (10pcs)

**Bar code** 3700461409912

**Text** The specific 18.5 to 21.5mm loosening sockets can be used on chrome-plated covers which have not been removed during a previous disassembly and are therefore damaged or caulked on the wheel nut.  
Similarly, 17-19 and 21mm helical sockets are required when wheel nuts are badly damaged and can no longer be loosened with a conventional hexagon.  
Finally, during reassembly, the anodized and protected 17-19 and 21mm sockets will enable you to retighten your wheel to the desired torque without risk of marking the rim.

**Product highlight** FORD-compatible

**Contents** Contents:  
- SA0660: 17mm spiral bushing  
- SA0661: 19mm spiral bushing  
- SA0662: 21mm spiral bushing  
- SA5022: 17mm sleeve (blue)  
- SA5017: 19mm sleeve (gold)  
- SA5023: 21mm sleeve (red)
