1/2" wheel intervention socket set (10pcs)

Reference : OM 7027

Item name	1/2" wheel intervention socket set (10pcs)
Bar code	3700461409912
Text	The specific 18.5 to 21.5mm loosening sockets can be used on chrome-plated covers which have not been removed during a previous disassembly and are therefore damaged or caulked on the wheel nut. Similarly, 17-19 and 21mm helical sockets are required when wheel nuts are badly damaged and can no longer be loosened with a conventional hexagon. Finally, during reassembly, the anodized and protected 17-19 and 21mm sockets will enable you to retighten your wheel to the desired torque without risk of marking the rim.
Product highlight	FORD-compatible
Contents	Contents: - SA0660: 17 mm spiral sleeve - SA0661: 19 mm spiral sleeve - SA0662: 21 mm spiral socket - SA5022: 17 mm coated socket wrench (blue) - SA5017: 19 mm coated socket wrench (gold) - SA5023: 21 mm coated socket wrench (red) - OM7028: 18.5 and 19.5 mm reversible socket wrench - OM7029: reversible socket wrench, 20.5 and 21.5 mm - OS6999: 1/2" 75 mm extension bar - SA 8074: pin remover, Ø 8–12 mm
