Reference : AG 0002

Item name	Exhaust gas extraction on motorcycle roller 10m Ø75mm 400V
Bar code	3701555300917
Introduction	Specially designed for exhaust extraction in motorcycle workshops.
Text	This spring-loaded mechanical winder, complete with extraction fan, can be installed on the ceiling or wall, while maintaining the same performance. The equipment allows you to work in a healthy environment, without inhaling exhaust fumes and in compliance with workplace safety standards. Hose: anti-crushing structure, maintains flexibility over time thanks to the robust nylon spiral with a very tight pitch. This feature prevents the hose from stretching when pulled, and from crushing in high-stress situations. Its smooth interior design guarantees maximum suction efficiency in m3. Directly coupled electric Engine, statically and dynamically balanced impeller to limit friction and vibration and reduce energy consumption. Inlet and outlet flanges dimensioned for optimum suction capacity. Support feet for wall or ceiling mounting are included.
