Universal anti-leak concentrate 8ml with tracer + R134a adapter

Reference : CO 6123

Item name	Universal anti-leak concentrate 8ml with tracer + R134a adapter
Bar code	3701555304861
Introduction	Specially designed for the rapid repair of micro-leaks in automotive air-conditioning systems.
Text	The stop leak introduced into the system will begin to circulate to the leak hole with the refrigerant gas. As it exits, the product reacts with the air, hardening and permanently sealing the micro-leak. This concentrated version allows less substance to be introduced into the A/C system, while still achieving the same results as traditional stop-leaks. It can also be used for preventive actions. Compatible with A/C systems using HFC R134a and HFO R1234yf.
