Injector extractor set Fiat

Reference : OM 9203

Item name	Injector extractor set Fiat
Bar code	3701555306483
Introduction	This time-saving kit enables the removal of severely seized injectors.
Text	Work without disassembling the cylinder head, thanks to a support system that can be positioned and adjusted on the cylinder head cover. The various sliding bearings allow the cylinder to be adjusted for quick and easy injector removal. A special screw coupled to the cylinder allows a double grip (internal and external) on the injector to increase the pulling force tenfold, with little risk of injector breakage. The Aluminum cylinder combines strength and lightness.
