Windshield impact self-repair kit

Reference : OC 2210

Item name	Windshield impact self-repair kit
Bar code	3701555307350
Text	This tool enables semi-automatic injection of repair and finishing resins for "repairable" impacts. Thanks to its 12V motor (to be plugged directly into the cigarette lighter), the compressor will first create a vacuum cycle before injecting the resin. The multiple cycles of pressure and vacuum will then allow the resin to penetrate well, for a fast, long-lasting repair. The 12V UV curing lamp supplied in the kit automatically cures the resin thanks to its built-in timer. This prevents the impact (or crack) from worsening, and avoids the need to replace the entire pane.
Product highlight	Quality and speed of intervention.
Contents	Contents: - Metal mount with a suction cup featuring strong suction + 2 additional support suction cups - 12V compressor for positive and negative pressure - UV3 LED lamp, 12V - 12V power cable for the cigarette lighter - 1.5 m air hose - mirror
Warranty period	2 years
Vehicle type	LV

Voltage 12V

Tariff code Tariff Normal (TN)

***Public price Exl. Tax : €2,490**
