Flat insulated 10x250 screwdriver 1000V premium

Reference : OE 0776

Item name	Flat insulated 10x250 screwdriver 1000V premium
Bar code	3701555308814
Introduction	A time-saving screwdriver.
Text	The screwdriver has a perfectly round handle end, providing the user with excellent grip and working comfort. This end of the handle is also rotatable, which facilitates approach tightening: the rotating ball of the handle is held in the palm and the fingers control the rotation. Thanks to a precision-turned blade, there is no extra thickness of insulation on the upper part of the blade to allow access to screws housed in fine shafts.
Product highlight	Rotating handle end
Specifications	Specifications: - standard: EN 60900 / IEC 60900 / ISO2380-1 / ISO8764-1. - blade: high-performance hardened steel: chrome molybdenum. - treatment: insulation sheath integral with the handle, injected directly onto the blade. - size: L.250mm
Warranty period	lifetime
Recesses	Flat
Voltage	1000V
