Semi-automatic motorized wheel balancer

Reference : EQ 0600BL

Item name	Semi-automatic motorized wheel balancer
Bar code	3701555310039
Introduction	WHEEL BALANCERS designed for dynamic or static balancing of LV, LCV, and 4x4 wheels. The machine’s key advantage is its modern and ergonomic design. The intuitive calibration system makes the job easier and improves balancing accuracy. The machine is equipped with a control screen. Semi-automatic entry of offset and diameter parameters.
Text	Features : - automatic cycle - multifunction keys - static and dynamic program (2 planes) in a single run - 6 dynamic programs and one static program - self-calibration - self-diagnosis: fault code - simultaneous display of weights and mass positions - measurement accuracy: ±1g - display accuracy: 5g
Product highlight	Simple and effective for everyday tasks
Specifications	Specifications: - Power supply: 240V-50Hz - Motor power: 180W - Dimensions with housing open: 880x980x1420mm - Control screen display

	- Maximum wheel weight: 65 kg - Minimum rim diameter: 10 inches - Maximum rim diameter: 24 inches - Rim width: 1 to 20 inches - Manual measurement of 3 parameters: offset, diameter, width - Safety guard - Rotation speed: 200 rpm - Shaft: L.210 mm × Ø40 mm × 4 mm - Compartmentalized tray for cones and weights - 4 storage brackets - Noise level <70 dB - Weight: 87 kg
Contents	Includes: - EQ6521BL: 4 cones ranging from 42 to 137 mm, Ø 40 mm - 12 mm Allen wrench - SA8305: rim width gauge - 100 g calibration weight - OC8034: multifunctional pliers - EQ6404BL: quick-release nut, Ø 40 x 4 mm, with cup, seal, and pressure ring
Advice	For installation and commissioning, please contact us. All our balancing machines are delivered factory calibrated.
Warranty period	2 years
Power	80W
Voltage	240V
More	Products with electrical plug
Product weight (kg)	87 kg
Tariff code	Tariff Equipment (TE)
Product range	B-Line
Warranty Procedure	INTERVENTION
