

## PIT FLOOR JACK 1.5T

Reference : OH 0289

<b>Item name</b>	PIT FLOOR JACK 1.5T
<b>EAN code</b>	3701555311692
<b>Intro</b>	Ideal for working on transmissions, gearboxes, etc. in the pit floor, in complete safety and with minimum effort.
<b>Text</b>	Thanks to its double-piston cylinder (high height) and wheel-mounted chassis, you'll be able to work on any HGV or other vehicle, and in any pit. The table can be swivelled sideways, from left to right, and tilted forwards and backwards, enabling you to couple a gearbox, for example, to the flywheel with great precision and effortless ease. For safety, you can secure the operation with the locking chain. What's more, the manual electro-hydraulic motorization provides a powerful 1.5T up/down stroke for precise coupling of components.
