

## 6/12/24V vehicle battery tester with printer

Reference : AC 5254

**Item name** 6/12/24V vehicle battery tester with printer

**Bar code** 3701555313115

**Introduction** The battery tester with integrated printer is compatible with 6V / 12V / 24V battery tests. Light vehicles, commercial vehicles, trucks, motorcycles, boats, farm machinery.

**Text** Capable of efficiently analyzing and reading battery data such as voltage, internal resistance, cold-start amp, battery health and state-of-charge. With a 3.2-color lcd display, reading is quick and easy.

Test results are displayed in both text and diagram form.

4 test modes available, including 1 new one:

- battery test
- start-up test
- load test
- new: oscilloscope mode.

Thanks to this graphical mode, you can measure voltage drops in real time.

Designed for 6v, 12 v or 24 v batteries from 100 to 2000 CCA.  
with an intelligent 3.2 lcd display, reading access is fast and convenient
