

10" Thinktool euro Master diagnostic tool

Reference : AD0TKT05EM

Item name 10" Thinktool euro Master diagnostic tool

Bar code 3701555314396

Introduction Light commercial vehicle range:
The most intelligent diagnostic tool, supports CAN FD protocol. 10-inch online diagnostic and programming tool.

Text Thinkcar Euro Master is an advanced diagnostic tool that offers technicians the unique possibility of adding additional modules, making it adaptable to all types of garage and all requirements. The tool enables complete system diagnostics, with in-depth access to each module and parameter. What's more, it offers coding capabilities, allowing you to save, restore and retrieve coding online from the original equipment manufacturer's (OEM) database. Some brands even allow you to deactivate specific settings and further personalize your vehicle. There are 35 service functions, including resets, electronic brake release, AdBlue reset, coolant bleeding, injector coding, battery adaptation and much more.

Additional modules can be added for maximum adaptability:

- compatible with optional 24V truck module (AD000TKD03)
- compatible with optional key management module (AD000TKT12)
- compatible with optional TPMS service (AD000TKTG3)
- powerful OE diagnostics with original reading protocols and guided diagnostics.
- automatic diagnostic report with wireless printing.
- complete system diagnostics for each module and parameter.
- coding function to save, restore and retrieve coding online.

- live data with full visualization (numerical, graphical, recording)

- 35 reset modules:

A/F, adblue, AFS, airbag, ABS purge, battery, brakes, elec pump, DPF, EGR, ETS, Engine, gearbox, immo, injectors, language, NOX, ODO, oil, SAS, seats, stop/start, roof, suspension, TPMS, transport, tires, windows, DPF regeneration, engine balance, throttle body, climate, immo prog, battery diagnostics, intelligent regulator.

Product available for sale only in France and French overseas departments and territories.
