

Multi-control tool for tire and oil wear

Reference : ADTKEASY

Item name Multi-control tool for tire and oil wear

Bar code 3701555318776

Introduction All-in-one verification tool!
Specific tool for your workshop entry tests

Only available in France and French overseas departments and territories.

Text With an all-new industrial design, the tester is compact and easy to use, allowing one-handed operation.

It integrates functions such as oil quality test, tire pressure test and tread wear test (accuracy 0.1 mm) at four different points.

It supports comprehensive functions for TPMS tire pressure sensors, including activation, programming, learning and diagnostics.

Based on the results of several test items, it generates a comprehensive test report for delivery to customers.

This triggers additional sales with supporting reports.

Product highlight Tire wear, oil quality and TPMS checks at a glance!
