Valves 27,15x7,8mm (5pcs)

Reference : CO 4059

Item name	Valves 27,15x7,8mm (5pcs)
Bar code	3700461485091
Introduction	Ensure trouble-free sealing on demanding air-conditioning systems with the CO 4059 set. These long-form (27.15mm) shells are designed for specific service ports, guaranteeing hermetic and durable sealing on LV and LCV systems.
Text	The CO 4059 is a critical reference for specialist workshops, covering needs on load connections whose depth requires an elongated valve core. Specific Long Dimensions (27.15 x 7.8mm): Exact calibration for deep valve bodies, ensuring that the closing mechanism is perfectly positioned to block gas flow. Certified sealing: High-strength seals compatible with R134a and R1234yf gases. Resistant to PAG and POE oils without swelling or polymer degradation. Reinforced Spring Mechanism: Designed to withstand high operating pressures while guaranteeing instant needle retraction as soon as the coupling is removed. Premium" materials: Alloy body treated against salt and chemical corrosion, preventing valve core seizure in the service port over the long term. Workshop format: Batch of 5 pieces for simplified stock management and immediate reactivity when servicing air-conditioning circuits.

Warranty period No warranty (consumable)

Tariff code Tariff Normal (TN)

Warranty Procedure NO

***Public price Exl. Tax : €15**
