

## Air conditioning leak stop for R134a 30ml

Reference : CO 4065

<b>Item name</b>	Air conditioning leak stop for R134a 30ml
<b>Bar code</b>	3700461482991
<b>Introduction</b>	Closes micro-leaks in metal parts, hoses and seals. Saves time on hard-to-reach leaks.
<b>Text</b>	<p>Specially designed for rapid repair of micro-leaks in air-conditioning systems. The sealant introduced into the circuit begins to circulate until the leak is found. When it escapes, the product reacts with the air, hardens and permanently seals the micro-leak. In the absence of polymer, there's no risk of damaging circuit components and/or the air-conditioning station.</p> <p>Non-pressurized bottle containing no propellant. No gas is injected: no risk of overpressure or circuit damage (unlike syringes and aerosols). The bottle contains a liquid which is sucked in by the vacuum previously created in the circuit.</p>
<b>Product highlight</b>	Cost-effective solution
<b>Specifications</b>	Suitable for R134a Recommended for vehicles containing up to 350ml lubricant and 1.5kg refrigerant. Vehicle must be equipped with R134a low-pressure connection.
<b>Advice</b>	Also available in box of 35

**Warranty period** No warranty (consumable)

**Capacity (ml)** 30 ml

**Capacity (l)** 0.03 l

**Tariff code** Tariff Normal (TN)

**Warranty Procedure** NO

**Consumable type** Additive
