

AIR CONDITIONING LEAK STOP FOR R134a 30ml

Reference : CO 4065

Item name	AIR CONDITIONING LEAK STOP FOR R134a 30ml
Bar code	3700461482991
Introduction	Closes micro-leaks in metal parts, hoses and seals. Saves time on hard-to-reach leaks.
Text	Specially designed for rapid repair of micro-leaks in air-conditioning systems. The sealant introduced into the circuit begins to circulate until the leak is found. When it escapes, the product reacts with the air, hardens and permanently seals the micro-leak. In the absence of polymer, there's no risk of damaging circuit components and/or the air-conditioning station.
	Non-pressurized bottle containing no propellant. No gas is injected: no risk of overpressure or circuit damage (unlike syringes and aerosols). The bottle contains a liquid which is sucked in by the vacuum previously created in the circuit.
Product highlight	Cost-effective solution
Specifications	Suitable for R134a Recommended for vehicles containing up to 350ml lubricant and 1.5kg refrigerant. Vehicle must be equipped with R134a low-pressure connection.
Advice	Also available in box of 35

Warranty period No warranty (consumable)

Capacity (ml) 30 ml

Capacity (l) 0.03 l

Tariff code Tariff Normal (TN)

Warranty Procedure NO

Consumable type Additive

***Public price Exl. Tax : €25**

*Applicable user fees from 01/09/2025 to 31/08/2026
