Euro 391 10" diagnostic tool

Reference : 30000074

Item name	Euro 391 10" diagnostic tool
Bar code	3701555322988
Introduction	REMOTE VL/VUL range: 10" professional diagnostic tool Product available for sale in France only.
Text	THINKTOOL Euro 391 is a brand-new diagnostic tool. It supports more than 120 passenger cars, more than 70 electric vehicles with the EV package (optional), and more than 150 HGVs with the HD package (optional). The new TCOS system offers an optimized user interface and easier operation. 10.1-inch IPS screen with a resolution of 1280×800, high-performance MT8766 quad-core processor, 4GB+128GB memory, and a 13MP rear camera with flash. Supports dual Wi-Fi communication for faster diagnostics. When paired with the THINKLINK LITE VCI, it supports CAN 2.0, CAN FD, DOIP, and major diagnostic protocols such as J2534, covering both passenger cars and new energy vehicles. Comprehensive OEM-level system diagnostics The new Euro 391 supports advanced diagnostic functions, such as full system scan, actuator test, coding, and online programming functions. Supports THINKCAR functional modules such as battery testing, videoscope, oscilloscope, TPMS, and key programmer.
