

EURO 191 PACK WITH TPMS TOOLS AND VALVES

Reference : 19100040

Item name	EURO 191 PACK WITH TPMS TOOLS AND VALVES
Bar code	3701555323565
Introduction	The ultra-complete package including an 8" bidirectional diagnostic solution with TPMS tool and 4 valves - all at the best value for money!
	Only available in France and French overseas departments and territories.
Text	<p>Diag. case</p> <p>THINKCAR has just released a new advanced diagnostic tool, the THINKTOOL 191, with a brand-new user interface and a new design, lighter and slimmer, it supports the CAN-FD, DOIP protocols commonly used for vehicles.</p> <p>Advanced diagnostic function</p> <p>Full system scan, advanced coding, bidirectional control, special function.</p> <ul style="list-style-type: none">- AutoSearch: automatic reading of vehicle VIN to identify manufacturer, year and model, enabling rapid system diagnosis.- Read/erase fault codes (DTC)- Real-time data reading- Actuator testing (bidirectional)- ECU coding- Generation and management of diagnostic reports- Recorded session history- Lightweight, modern design, easy to carry

- Bluetooth Diag Mini 2 connector
- Support for advanced protocols: CANFD, DoIP, OBDII/EOBD
- Over 140 pre-installed vehicle software packages

- 35 reset modules :

AdBlue reset; Adaptive front lighting system reset; Airbag reset; Air/fuel ratio reset; ABS purge; Battery adaptation; Gearbox reset; Brake pad reset; Coolant flush; DPFS regeneration; EGR adaptation; Electronic throttle adaptation; Gear learning; IMMO service; Injector coding; Language change; NOx sensor reset; ODO meter reset; Service light reset; Steering angle reset; Seat occupancy calibration; Stop/Start reset; Sunroof reset; Suspension adjustment; TPMS reset; Transport mode; Tire reset; Window calibration; Clutch reset; ECU reset; FRM reset; Bridge module data calibration; Rain light sensor; Turbocharger adaptation; ODO Check

TPMS tools:

VENU-i Pro is a professional TPMS diagnostic tool that can be used stand-alone via the i-VENU mobile APP or in conjunction with a ThinkCar diagnostic tool.

It enables sensor activation, programming, diagnostics and other operations.

Compatible with 315MHz & 433MHz TPMS sensors

APP : <https://static.mythinkcar.com/apk/i-VENU.apk>

TPMS valve:

The Venu 5 PRO is a new generation of universal TPMS sensors, faster to code and program, 30% smaller, long range (75cm).

Unlimited programming.

Easy to install. Performance comparable to original valves.

Superior battery life: 4 to 6 years.

SAE standards

Tested and certified to industrial standard SAE J2657, IP67.

Can be infinitely programmed by THINKCAR T-WAND series TPMS programmers and other Thinktool TPMS-enabled tools.

Product available for sale in France only

Product highlight 2 years of free updates

Specifications Specifications:

- operating system: Android 10
- screen: 8" display
- CPU: 2.0Ghz / 4 cores
- storage: 64GB
- memory: 4GB
- battery: 4150mAh

TPMS tool features :

- battery: 2000mAh
- dimensions: 238x59x30mm
- working temperature: -10?-50?

TPMS valve features:

- battery: 4-6 years
- frequency support: 315MHz / 433MHz
- adjustable installation angle: 15-30°.
- certificates: CE, FCC, IC, ROHS, CP65
- pressure monitoring: 0-9Bar (0-900kpa)
- IP67 RATING
- net weight: 24g

Warranty period 2 years
