

ELECTRIC SUCTION CUP 210 MM 130 KG

Reference : OC 0690

Item name	ELECTRIC SUCTION CUP 210 MM 130 KG
Bar code	3701555323916
Introduction	Designed for glazing and bodywork professionals, this electric suction pad ensures a secure hold thanks to its autonomous suction, which is always stable and powerful without any intervention.
Text	<p>Exceptional holding safety: With a diameter of 210 mm, the suction pad generates a theoretical holding force of around 230 kg at a vacuum of -65 kPa. We guarantee a safe working load of 130 kg, providing a significant safety margin even in the most demanding workshop conditions.</p>
	<p>Automatic vacuum monitoring: Unlike pneumatic suction pads that require regular manual pumping, this suction pad : - Continuously monitors pressure, - Automatically restores suction as soon as it drops below -52 kPa, - Always maintains the optimum vacuum level for reliable, constant maintenance. - There's no need to check whether the suction cup is holding: it's constantly self-checking.</p>
	<p>Saves time and reduces risks: - No need to reprime or reposition the suction pad. - Less risk of unexpected detachment during handling. - Ideal for work on windscreens, side windows, body panels, heavy or bulky components.</p>

- Suitable for all automotive surfaces
- Its thick, soft edges are perfectly suited to the shape of modern windscreens, including rounded areas where conventional suction pads often lose their effectiveness.

Product highlight	Automatic vacuum monitoring
Specifications	<p>Specifications</p> <ul style="list-style-type: none"> -product dimensions: 200 mm -safe traction force: 130 kg -power supply: 3.7 V lithium battery -type-C charging interface -battery capacity: 1200 mAh*1 -charging time: 3 hours -autonomy: 4 hours -battery life without charging: over a week -safe traction force: 130 kg -battery compartment at the rear, allowing lithium batteries to be replaced at any time
Advice	For optimum hold, always work on a clean, dry surface. And for heavy or bulky glazing, use two suction cups: you'll gain in stability, handling comfort and safety.
Warranty period	2 years
Height	100 mm
Diameter (mm)	215 mm
Maximum load (Kg)	130 kg
Tariff code	Tariff Normal (TN)
Warranty Procedure	EASY
Customer benefit	<ul style="list-style-type: none"> - Safe, automatic suction - Powerful hold up to 130 kg - Time-saving and easy handling - Perfect with two suction cups for maximum stability
