Electric suction cup 210mm 130 kg

Reference : OC 0690

Item name	Electric suction cup 210mm 130 kg
Bar code	3701555323916
Introduction	Designed for glazing and bodywork professionals, this electric suction pad ensures a secure hold thanks to its autonomous suction, which is always stable and powerful without any intervention.
Text	Exceptional holding safety: With a diameter of 210 mm, the suction pad generates a theoretical holding force of around 230 kg at a vacuum of -65 kPa. We guarantee a safe working load of 130 kg, providing a significant safety margin even in the most demanding workshop conditions. Automatic vacuum monitoring: Unlike pneumatic suction pads that require regular manual pumping, this suction pad : - Continuously monitors pressure, - Automatically restores suction as soon as it drops below -52 kPa, - Always maintains the optimum vacuum level for reliable, constant maintenance. - There's no need to check whether the suction cup is holding: it's constantly self-checking. Saves time and reduces risks: - No need to reprime or reposition the suction pad. - Less risk of unexpected detachment during handling. - Ideal for work on windscreens, side windows, body panels, heavy or bulky components.

- Suitable for all automotive surfaces
- Its thick, soft edges are perfectly suited to the shape of modern windscreens, including rounded areas where conventional suction pads often lose their effectiveness.

Product highlight Automatic vacuum monitoring

Specifications
Specifications:
- Product dimensions: 210 mm
- Safe pulling force: 130 kg
- Power source: 3.7 V lithium battery
- Charging interface: USB Type-C
- Battery capacity: 1200 mAh*1
- Charging time: 3 hours
- Runtime: 4 hours
- Battery life without recharging: over a week
- Battery compartment on the back allows you to replace the lithium batteries at any time

Advice For optimum hold, always work on a clean, dry surface. And for heavy or bulky glazing, use two suction cups: you'll gain in stability, handling comfort and safety.

Warranty period 2 years

Height 100 mm

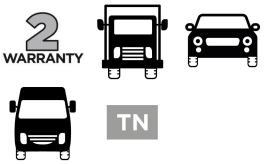

Diameter (mm) 215 mm

Maximum load (Kg) 130 kg

Tariff code Tariff Normal (TN)

Warranty Procedure EASY

Customer benefit
- Automatic and secure suction
- Strong holding capacity of up to 130 kg
- Saves time and is easy to handle
- Perfect with two suction cups for maximum stability
