Pneumatic suction pad for square

Reference : OC 0830

Item name	Pneumatic suction pad for square
Bar code	3701555323947
Introduction	The CLAS suction pad anchoring base offers exceptional support thanks to its high-performance Venturi system. Designed to create a strong, independent pulling point, it guarantees a reliable grip even on the smoothest floors.
Text	Featuring a large-area suction pad and a thick, high-adhesion gasket, this base ensures fast, extremely stable fixing. The integrated Venturi system creates an immediate vacuum, ensuring that the suction pad is perfectly flat against the ground. Ideal for completing a pulling column or creating an additional anchoring point, it becomes indispensable for all straightening operations requiring precision and safety.
Product highlight	Ultra-stable hold even on uneven floors.
Specifications	Specifications: - Integrated pneumatic venturi system for rapid vacuuming. - Large, high-strength suction pad seal, effective on uneven floors. - Reinforced traction ring for all types of bodywork operations. - Robust steel construction. - Perfectly flat base for optimum grip. - Fully compatible with OC 0800 straightening column. - Easy to use: quick connection to compressed air network.
Contents	- 1 mounting base - 1 industrial suction cup with a thick seal

- 1 integrated Venturi system
- 1 reinforced pulling ring
