Expert LED dent removal lamp

Reference : OE 1230

Item name	Expert LED dent removal lamp
Bar code	3701555323794
Introduction	This professional inspection light is designed for bodybuilders and dent removal specialists who want to detect surface defects accurately and work with perfectly controlled lighting.
Text	The lamp is easily attached to the bodywork using its pneumatic vacuum suction cup, or via its integrated magnet, for rapid installation on any type of surface. Mounted on a flexible 40 cm ball-and-socket joint, it can be freely oriented to precisely adjust the luminous flux to the area to be treated. It features 1 to 3 LED strips that can be activated independently, enabling lighting to be modulated as required. Light intensity and color temperature are adjustable to optimize reading of even the finest impacts and deformations. Supplied with an interchangeable ridged reflector, it perfectly highlights sheet irregularities for fast, precise and controlled dent removal.
Product highlight	+ 27 lighting modes
Specifications	Reflector size: 22x52cm
