Point-pull box with inertia weight

Reference : OC 0214

Item name	Point-pull box with inertia weight
Bar code	3701555325514
Introduction	This dent removal kit enables the user to repair bodywork that has been dented or dented without even repainting the component. The process consists of gluing plastic pellets to the body using the gun and glue specially designed for bodywork, and connecting the inertia weight or pulling pliers to bring back the painted sheet metal without damaging it. The pad is simply removed with a surface-cleaning solvent (not supplied) and the nylon chisel.
