Item name	Thinkscan hgv 5" diagnostic tool
Bar code	3701555326252
Introduction	Professional diagnostic tool designed for trucks, buses and commercial vehicles.
Text	Intended for technicians specializing in heavy-duty vehicles, it enables complete diagnostics of the main ECUs: ABS, SCR, braking systems, engines and transmissions. Covering over 70 makes of HGV. Its 5-inch touchscreen and fluid Android system make it easy to use, while online updates via Wi-Fi, free for 2 years, ensure that the tool is always up to date. Compatible with a wide range of makes and models, thanks to support for J1939, J1708, CAN-FD and OBD-II protocols, it is an indispensable piece of equipment for HGV workshops. In a nutshell: In-depth analysis of electronic modules: Engine management, ABS, transmission, SCR emission control system and other on-board ECUs. Reads and eliminates fault codes on commercial vehicles, trucks and vans. Initiate DPF/DPF regeneration to restore exhaust system efficiency. Program and calibrate injectors after replacement or servicing. Reset urea system (SCR) and electronic parking brake. Speed limiter readjustment, available depending on vehicle configuration. Cylinder-by-cylinder deactivation test to check engine balance.

Live visualization of parameters in the form of graphs or dynamic tables.
Automatic vehicle identification via Auto VIN, for immediate time savings.
Control of I/M systems, O2 sensors and EVAP circuits on 12 V commercial vehicles via OBD-II interface.

- 8 reset modules:
