Battery-powered blower

Reference : PW 8000

Item name	Battery-powered blower
Bar code	3701555328881
Introduction	Designed for demanding environments, it is a superior alternative to the traditional air blow gun, offering complete mobility and a powerful airflow for drying, snow removal, and maintenance of work areas. Ships without a battery or charger
Text	This tool is the ideal partner for auto detailers and shop technicians. "Zero-streak" body repair drying: instantly removes water from critical areas (side mirrors, emblems, fuel door lids, window seals) after washing. Prevents water streaks and reduces the need for microfiber cloths, thereby minimizing the risk of micro-scratches. Adjustable airflow: adaptive trigger to switch from gentle airflow for delicate interiors to maximum power for clearing snow from fleet vehicles or fallen leaves outdoors. Cordless Freedom: Runs on an interchangeable 20V CLAS battery, eliminating the constraints of an air hose and the risk of paint scratches caused by the hose rubbing against the vehicle. Ergonomics & maneuverability: compact, well-balanced design with a non-slip "soft-grip" handle. Its lightweight construction allows for extended use without fatigue, even when thoroughly cleaning an engine compartment or drying a complex wheel rim.

	Workshop Versatility: Ideal for dusting off workbenches, cleaning air filters, quickly drying mechanical components after degreasing, or even clearing snow from a window or roof in just a few seconds.
Specifications	Specifications: - 20V - Power: 800W - Speed: 30,000 rpm - Weight: 0.5 kg (without battery)
Warranty period	3 years
Product weight (kg)	0.50 kg
Tariff code	Tariff Normal (TN)
Warranty Procedure	DIAGNOSTIC
Customer benefit	Compatible with all CLAS batteries
