

Battery-powered blower

Reference : PW 8000

Item name Battery-powered blower

Bar code 3701555328881

Introduction Boost your productivity with this high-performance cordless blower from the CLAS range (compatible with CLAS 20V battery). Designed for demanding environments, it is the ideal replacement for the traditional pneumatic blower, offering total mobility and powerful airflow for drying, clearing snow and maintaining work areas.

Supplied without battery or charger.

Text This tool is the ideal partner for detailers and workshop technicians.

Zero Trace Body Drying: Instantly eliminates water in critical areas (mirrors, emblems, fuel filler flaps, window seals) after washing. Prevents residual drips and reduces the use of microfibres, thus limiting the risk of micro-scratches.

Adjustable blowing power: Adaptive trigger to switch from gentle blowing on fragile interiors to maximum power to remove snow from park vehicles or dead leaves outdoors.

Wireless freedom: Operates on an interchangeable 20V CLAS battery, eliminating the constraints of pneumatic hoses and the risk of scratching paintwork due to hose friction.

Ergonomics & Handling: Compact, well-balanced design with non-slip soft-grip handle. Its light weight means it can be used for long periods without tiring, even when cleaning an entire engine compartment or drying a complex rim.

Workshop versatility: Ideal for dusting workbenches, cleaning air filters, quickly drying mechanical components after degreasing or even removing snow from windows or roofs in a matter of seconds.

The CLAS advantage: A large-diameter air-concentration nozzle included for a direct, powerful flow right where you need it. It's the ultimate time-saving tool.

Specifications Specifications:
- 20V
- Power: 450W
- speed: 30,000 rpm
- weight: 0.530g (without battery)

Warranty period 3 years

Tariff code Tariff Normal (TN)
