BODY REPAIR inertia puller kit 13 tools

Reference : OC 2212

Item name	BODY REPAIR inertia puller kit 13 tools
Bar code	3701555329420
Introduction	Modular, robust CLAS inertia pulling kit for precise or powerful body repair, with interchangeable weights and reinforced bits for all pulling configurations.
Text	The CLAS inertia pulling kit offers a powerful, modular and reliable solution for body repair, thanks to its interchangeable weights, optimized stroke and reinforced hooks, claws and suction pads, perfectly suited to intensive workshop use.
Product highlight	Ergonomic handle with protection
Specifications	Specifications: - 1 x 1 kg flyweight: For precise, gradual pulling on slightly dented areas or sensitive areas. - 1 x 2.5 kg flyweight: For powerful pulling on severely dented sheet metal or structural areas. - Weight stroke: 350 mm - 3 long, curved hooks: Ideal for deep or hard-to-reach areas; facilitate alignment of the pull. - 2 right-angle hooks: Designed to grip edges, flanges, and rigid areas of the body repair. - 1 single hook: A versatile solution for direct pulling and quick repairs. - 1 suction cup mounting adapter: Allows for quick and secure attachment to the pulling rod. - 1 suction cup (Ø 75 mm): For localized areas and slightly curved surfaces. - 1 suction cup (Ø 125 mm): for large, flat surfaces, allowing for pulling & restraining

without marking the sheet metal.
- 1 claw with 7 hooks – width 120 mm: even distribution of force over a wide area to minimize tearing.
- 1 claw with 6 hooks – 90 mm wide: concentrated and powerful pulling on narrower or heavily damaged areas.

Contents

Contents:
- 1 kg weight
- 2.5 kg weight
- Handle with protective cover
- 3 long, curved hooks
- 2 straight hooks
- 1 single hook
- 1 adapter for suction cup attachment
- 1 suction cup, 75 mm diameter
- 1 suction cup, 125 mm diameter
- 1 clamp with 7 hooks, 120 mm wide
- 1 clamp with 6 hooks, 90 mm wide

Warranty period 2 years

Tariff code Tariff Normal (TN)

Warranty Procedure EASY

Customer benefit Reinforced bits designed to withstand heavy-duty workshop use
