

INDUCTION HEATER

Reference : OE 0610

Item name INDUCTION HEATER

Bar code 3700461489419

Introduction This tool heats a part at a precise point, making it easy to release screws, nuts, bolts, connecting rods, hubs (even rusty ones), lambda probes, ball bearings... It also makes it easy to remove stickers, glued door strips or truck wheel nuts.

It's a real alternative to blowtorches or flame torches: its induction system enables precise, flameless heating of a metal (conductive) part, with no risk of damaging neighbouring non-conductive parts (glass, plastic, paint, etc.).

What's more, the operator saves considerable time when setting up the tool.

Product highlight Time-saving

Specifications Specifications :

- LED lighting of work area
- power: 900W
- frequency: 25-60 Hz
- dimensions: 278x70x210mm

Contents Contents :

- Ø18mm L.200mm rigid induction coil
- Ø22mm L.200mm rigid induction coil
- Ø28mm L.200mm rigid induction coil
- flexible induction coil
- plastic case with foam

Warranty period	2 years
Power	900W
Voltage	240V
More	Products with electrical plug
Cable length	2.80 m
Length (mm)	278 mm
Width	70 mm
Height	210 mm
Tariff code	Tariff Normal (TN)
