# Induction heater

Reference : OE 0610

| | |
|---|---|
| **Item name** | Induction heater |
| **Bar code** | 3700461489419 |
| **Introduction** | This tool heats a part at a precise point, making it easy to release screws, nuts, bolts, connecting rods, hubs (even rusty ones), lambda probes, ball bearings... It also makes it easy to remove stickers, glued door strips or truck wheel nuts.<br><br>It's a real alternative to blowtorches or flame torches: its induction system enables precise, flameless heating of a metal (conductive) part, with no risk of damaging neighbouring non-conductive parts (glass, plastic, paint, etc.).<br>What's more, the operator saves considerable time when setting up the tool. |
| **Product highlight** | Time-saving |
| **Specifications** | Specifications :<br>- LED lighting of work area<br>- power: 900W<br>- frequency: 25-60 Hz<br>- dimensions: 278x70x210mm |
| **Contents** | Contents:<br>- Rigid induction coil, Ø 18 mm, L 200 mm<br>- Rigid induction coil, Ø 22 mm, L 200 mm<br>- Rigid induction coil, Ø 28 mm, L 200 mm<br>- flexible induction coil<br>- plastic case with foam padding |
