

## 1/2" bit XZN m18 for VAG hubs

Reference : OM 0068

<b>Item name</b>	1/2" bit XZN m18 for VAG hubs
<b>Bar code</b>	3700461422096
<b>Introduction</b>	This XZN M18 Power Nozzle is the essential tool for loosening rear wheel hub screws on VAG Group vehicles (VW, Audi, Seat, Skoda). Designed to withstand very high tightening torques, it guarantees safe extraction without damaging the screw cavity.
<b>Text</b>	On many models, such as the Golf (V, VI), Touran or Audi A3, hub screws require special tooling capable of withstanding a striking force or force extension. This 1/2" Nozzle is made from high-performance steel to withstand the extreme stresses encountered when dismantling parts often seized up by time and corrosion. Its compact length ensures optimum force transmission, avoiding any unnecessary twisting effects, making it the preferred choice of technicians for wheel bearing or brake disc replacement operations.
<b>Warranty period</b>	2 years
<b>Suitable for branded VAG vehicles</b>	
<b>Recesses</b>	XZN
<b>More</b>	Impact wrench use recommended
<b>Recesses size</b>	M18
<b>Tariff code</b>	Tariff Normal (TN)
