1/2" bit XZN m18 for VAG hubs

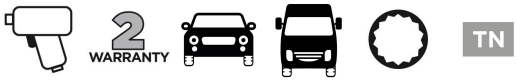

Reference : OM 0068

Item name	1/2" bit XZN m18 for VAG hubs
Bar code	3700461422096
Introduction	This XZN M18 Power Nozzle is the essential tool for loosening rear wheel hub screws on VAG Group vehicles (VW, Audi, Seat, Skoda). Designed to withstand very high tightening torques, it guarantees safe extraction without damaging the screw cavity.
Text	On many models, such as the Golf (V, VI), Touran or Audi A3, hub screws require special tooling capable of withstanding a striking force or force extension. This 1/2" Nozzle is made from high-performance steel to withstand the extreme stresses encountered when dismantling parts often seized up by time and corrosion. Its compact length ensures optimum force transmission, avoiding any unnecessary twisting effects, making it the preferred choice of technicians for wheel bearing or brake disc replacement operations.
Warranty period	2 years
Suitable for branded vehicles	VAG
Recesses	XZN
More	Utilisation clé à choc préconisée
Recesses size	M18
Tariff code	Tariff Normal (TN)

Drive 1/2"

Warranty Procedure EASY

***Public price Exl. Tax : €24**
