

Four arm wrench 1/2" 17-19-21mm

Reference : OM 0766BL

Item name	Four arm wrench 1/2" 17-19-21mm
Bar code	3700461475573
Introduction	This reinforced cross wrench is the essential tool for quick tightening and loosening of wheel nuts on most passenger cars and light commercial vehicles. It combines sturdiness and versatility to guarantee efficient intervention in the workshop or on the road.
Text	Designed to offer optimum leverage, this wrench enables balanced force to be applied with both hands, reducing physical effort and the risk of slipping. Its high-strength steel structure withstands high torques without deformation. It features three fixed sockets in the most common sizes (17, 19 and 21 mm), plus a 1/2" square drive for adapting any other specific socket. It's the simple, indestructible basic tool for all pneumatic and brake maintenance operations.
Specifications	Specifications : <ul style="list-style-type: none">- square central reinforcement- 3 hexagonal recesses: 17, 19 and 21mm- 1 1/2" square recess to accommodate all sockets
Warranty period	2 years
