Flexible hose clamp driver 6-7mm

Reference : OM 0950

Item name	Flexible hose clamp driver 6-7mm
Bar code	3700461446863
Introduction	Save precious time on Engine work with OM 0950, the heavy-duty flexible screwdriver designed for inaccessible hose clamps. An indispensable 2-in-1 tool for navigating between peripheral components without unnecessary disassembly.
Text	The OM 0950 is the solution to under-bonnet space problems (intake, cooling and supercharging systems). Directional flexibility: its flexible shank makes it possible to reach clamp screws at an angle of approach impossible for a rigid screwdriver or standard ratchet. 2-in-1 Reversible Socket (6 and 7mm): Equipped with a double hex socket (6mm on one side, 7mm on the other), it covers the majority of clamp screw diameters (Serflex type) on the market today. Optimized torque transmission: the internal structure of the hose is designed to transmit efficient torque without excessive twisting of the sleeve, guaranteeing perfect hose tightness. Ergonomic dual-material handle: Provides a non-slip grip, even with greasy hands, for total control during the tightening phase. Professional strength: Made from corrosion-resistant steel, the hose retains its shape

memory while withstanding repeated mechanical stress in the workshop.

The CLAS advantage: Unlike basic models, the OM 0950 integrates two socket sizes in a single tool, so technicians don't have to carry multiple references in their toolbox for a routine maintenance operation.

Specifications Specifications:
- Flexible shaft length: 200 mm
- Handle length: 120 mm
- Reversible 6- and 7-mm socket

Warranty period 2 years

Recesses Hex female

Recesses size 6-7mm

Tariff code Tariff Normal (TN)

Warranty Procedure EASY

***Public price Exl. Tax : €15**

*Applicable user fees from 01/09/2026 to 31/08/2027
