Universal timing gear holder

Reference : OM 3753

Item name	Universal timing gear holder
Bar code	3700461456640
Introduction	This sprocket block holds and/or rotates the camshaft by blocking the pulley.
Text	Depending on its position and the space required on the Engine, the handle can be adjusted from 25mm/25mm in 3 positions by means of a butterfly nut. The steel pulley slider provides stability when blocked, and can be locked by a free-spinning wing nut, similar to that used on presses. The handle is ergonomically designed, the tool is sturdy and the teeth on the spindles are of high quality for a good grip on the pulley.
Specifications	Specifications: - Minimum length: 340 mm - Maximum length: 380 mm - Width: 65 mm - Adjustable opening size and lock: 50 to 195 mm
Warranty period	2 years
Tariff code	Tariff Normal (TN)
Warranty Procedure	EASY

***Public price Exl. Tax : €41**
