Set of separating knives + claws

Reference : OM 5412BL

Item name	Set of separating knives + claws
Bar code	3700461469770
Introduction	This multi-purpose unit enables bearings, pinions and bushings to be removed safely, even when they are glued or difficult to access. It combines the power of a pulling claw with the precision of separating knives to guarantee distortion-free disassembly of mechanical parts.
Text	This set is designed to solve the most complex blocking problems in the machine shop. Thanks to its two bevel-edged separating knives (30-50mm and 50-75mm), it can be easily inserted behind the tightest parts, where conventional clamps won't fit. The combined use of the stem and extensions ensures that pressure is perfectly distributed, avoiding skewing the bearing or pinion during extraction. It's the ideal tool for working on gearboxes, hubs or transmissions in complete safety.
Contents	Contents: - 1 cutting blade, min. 13 mm, max. 63 mm - 1 cutting blade, min. 5 mm, max. 65 mm - 2 blade arms, length 60 mm - 2 blade arms, length 80 mm - 2 blade arms, length 104 mm - 2 blade arms, length 128 mm - 2 110 mm clamps - 1 support for arms/clamps, width 45–150 mm - 1 tension screw, length 170 mm, drive 17 mm

Warranty period 2 years
