Assembly/disassembly self-locking tie-rod wrench. Ø28-Ø35mm

Reference : OM 9174

Item name	Assembly/disassembly self-locking tie-rod wrench. Ø28-Ø35mm
Bar code	3700461456534
Introduction	Allows fast, professional free-standing and removal of 28-35mm axial steering spherical plain bearings. The head consists of a cage with three hardened steel rollers. Rotation of the tool causes the rollers to self-lock between the body of the tool and the ball joint, enabling the axial ball joint to be screwed on/off without damaging it. Compatible with round, hexagonal and octagonal spherical plain bearings.
Specifications	Specifications: - Hardened steel rollers - 1/2" drive + 27mm hex for more power - Tube length: 400 mm (hollow) - Head diameter: 74 mm
Warranty period	No warranty (consumable)
Tariff code	Tariff Normal (TN)
Drive	1/2"
Warranty Procedure	NO

***Public price Exl. Tax : €49**
