Power steering tester

Reference : AC 0310

Item name	Power steering tester
Bar code	3700461450785
Introduction	This tool enables power steering hydraulic pumps to be checked by direct pressure measurement, according to circuit flow and at high temperatures, thanks to the reinforced hose. It is simply installed on the high-pressure outlet of the hydraulic pump (or on a pressure tap, depending on the manufacturer). It's a universal device, thanks to its different diameter connections. The pressure gauge supplied is set at 140 bar and can withstand 120°C. This enables the user to make a reliable diagnosis of a vehicle safety component.
Contents	Contents: - Pressure gauge (0–140 bar) with shut-off valve - Reinforced hose (0–120 °C) - Universal couplings for connecting the circuit to the pump
Warranty period	2 years
Tariff code	Tariff Normal (TN)
Warranty Procedure	EASY
