

POWER STEERING TESTER

Reference : AC 0310

Item name POWER STEERING TESTER

EAN code 3700461450785

Intro This kit allows the hydraulic pumps for power-steering to be checked by measuring the pressure directly depending on the circuit flow rate, including high temperatures, thanks to the reinforced hose.
Easy to install on the high-pressure outlet of the hydraulic pump (or on a pressure outlet, depending on the manufacturer). It is a universal device thanks to its different diameter connectors. The manometer supplied is tapped at 140bar and can withstand temperatures of up to 120°C.
That allows the user to proceed to a reliable diagnosis of a vehicle safety device.

Contents Contents:
- 0-140bar manometer with isolation tap
- reinforced flexible hose 0-120°C
- universal connectors for circuit/pump connections

Warranty period 2 years

Tariff code Tariff Normal (TN)

Warranty Procedure EASY

***Public price Exl. Tax : €219.00**
