Pressure and Vacuum Pump (-0.5/+3 bar)

Reference : AC 0550BL

Item name	Pressure and Vacuum Pump (-0.5/+3 bar)
Bar code	3700461468940
Introduction	Optimize your workshop diagnostics with the AC 0550BL pressure/vacuum pump from CLAS Équipements, the essential tool for precise control of pneumatic and vacuum systems on light, commercial and heavy-duty vehicles.
Text	Designed for versatility and performance, this manual pump can generate both vacuum (-0.5 bar) and pressure (+3 bar). It is ideal for reliably testing: - intake systems - vacuum-operated solenoid valves - tank ventilation - the EGR valve - the turbocharger - vacuum-operated valves and actuators - braking assist systems (brake booster) - leaks and loss of sealing in hoses, piping, and pneumatic controls Its rugged design ensures it can withstand heavy-duty workshop use while maintaining high precision thanks to its built-in pressure gauge.
Product highlight	Complete pressure/vacuum range and universal adapter kit
Specifications	Specifications: - Measurement range: vacuum 0 to -0.5 bar / pressure 0 to +3 bar

- Analog needle-type pressure gauge
- Pump body: anodized Aluminum
- Handle: reinforced dual-material
- Quick-connect fittings for changing bits
- Compatible with automotive fluids (air, oily vapors, light fuel)
- Hard-shell case with compartments

Contents

Contents:
- 1 set of 5 nozzles
- 1 set of 4 hose extensions with 4 nozzles
- collection jar with 2 lids
- 2 500mm extensions

Engine codes BLS

OEM codes VAS6213

Warranty period 2 years

Tariff code Tariff Normal (TN)

Product range B-Line

Warranty Procedure EASY

Customer benefit Reduces diagnostic time, enables rapid identification of pneumatic leaks and failures, compatible with all vehicles and supplied with a complete kit for immediate use.

***Public price Exl. Tax : €89**

*Applicable user fees from 01/09/2026 to 31/08/2027
