Water pump flow tester

Reference : AC 1007

Item name	Water pump flow tester
Bar code	3700461485671
Introduction	In some cases of engine overheating, the water pump may be involved (broken shaft, worn fins...). This tester enables you to check that water pumps are working properly, without dismantling them, thanks to the manometer which measures the water pump's flow rate.
Product highlight	No need to dismantle the water pump
Specifications	Specifications: - pressure gauge - 200 cm hose - stepped male adapter for flexible hoses, Ø8 mm to 20 mm - tapered female adapter for rigid hoses, Ø7 to 22 mm - 3 rubber O-rings for the female adapter - 2 plugs
Warranty period	2 years
Tariff code	Tariff Normal (TN)
Warranty Procedure	EASY
