

Cooling system filling/draining device

Reference : AC 1020

Item name Cooling system filling/draining device

Bar code 3700461491696

Introduction This mobile device can drain, check for leaks, clean, create a vacuum to purge the cooling circuit and refill it, thanks to its venturi system coupled with a pressure gauge. Ensures environmentally-friendly operation, since virtually all the used coolant is recovered, enabling the user to dismantle any Engine component without draining coolant.

Text Compatible with gasoline, diesel, hybrid and electric vehicles (ethylene glycol)

Product highlight Quick response
No soil pollution

Specifications Specifications :

- 2 independent 15-liter tanks for storing polluted liquid and new liquid
- 2 manometers for tank control
- connection to expansion vessel via conical adapter
- 3 dip tubes of different lengths
- 4 swivel wheels
- dimensions: L.430xW.610xH.1350mm
- weight: 43kg

Functions :

- used liquid extraction
- vacuum leak test
- new liquid filling

- used liquid tank draining
- new liquid tank draining

Options

Options:

- AC1021: Cooling system filling/draining hose adapters
- AC1022: Gravity cooling system drain adapter
