Leak testing plug kit

Reference : AC 1180

Item name	Leak testing plug kit
Bar code	3700461450808
Introduction	This tester enables the technician to pressurize any pressurized intake system, such as turbocharged or compressor-driven vehicles, to detect leaks quickly and accurately.
Text	Setting up the tool is simple: simply isolate a component such as the turbo, intercooler, hoses, etc., and place the obturator on one side and the pressurizing device on the other (traditional workshop pressure gauge for tires). Then, by pressurizing the circuit via the 0.9bar safety valve, the user can detect leaks by listening for noise.
Contents	Contents: - Set of 4 stepped valves, Ø 35 to 90 mm - Set of 4 stepped valves, Ø 35 to 90 mm, equipped with male quick-connect fittings - Pressure-building device with female quick-connect fitting for the valve and an air inlet of the wheel valve type
Warranty period	2 years
Tariff code	Tariff Normal (TN)
Warranty Procedure	EASY

***Public price Excl. Tax : €289**

*Applicable user fees from 01/09/2026 to 31/08/2027
