Ø75mm velcro sanding pad

Reference : SA 1429

Item name	Ø75mm velcro sanding pad
Bar code	3700461451096
Introduction	Optimize your finishing work with the SA 1429, the heavy-duty Ø75mm hook-and-loop sanding pad. Designed for perfect power transmission, it guarantees even sanding.
Text	The SA 1429 platen is the essential interface for your pneumatic or electric tools, combining robustness and precision for the treatment of small surfaces. Compact size Ø75mm: ideal for "Smart Repair", sanding headlights or areas with pronounced curves where a standard 150mm platen would be unsuitable. Self-gripping system (Velcro): High-density fastening guarantees maximum adhesion of abrasive discs or polishing foams, even at high rotation speeds, preventing slipping or tearing. Standard M6 attachment: with universal M6 male thread, it fits most compact orbital or rotary sanders and polishers on the market. Balanced Structure: Centered design to minimize vibration, reducing operator fatigue and preventing the appearance of irregular sanding marks on the backing. Flexible and Durable Material: Flexible edge to adapt to contours without the risk of notching the paint, while resisting overheating during intensive polishing.

Specifications	Thread M6x100
Warranty period	No warranty (consumable)
Diameter (mm)	75 mm
Tariff code	Tariff Normal (TN)
Warranty Procedure	NO
