

Fuel/Turbo pressure control kit/(-1/+9bar)

Reference : AC 4019

Item name	Fuel/Turbo pressure control kit/(-1/+9bar)
Bar code	3700461410628
Introduction	CLAS has developed this versatile test kit specifically to diagnose low-pressure fuel supply circuits for gasoline and diesel engines, as well as turbo pressure and vacuum measurement for pneumatic solenoid valve control circuits.
Text	Including a fuel pressure connector kit and an air pressure connector, this set allows the use of a single pressure gauge to cover all pressure and vacuum controls between -1 and +9bar.
Product highlight	Certified pressure gauge
Contents	Contents : <ul style="list-style-type: none">- pressure/vacuum gauge (with quick-fit coupling)- 3 meters of fuel pressure test hose for road tests- 3 meters of hose for road test air pressure control- T-connector adaptable to low-pressure fuel circuit- a T-connector (fitted with standard fittings) adaptable to low-pressure fuel circuit.
Warranty period	2 years
Tariff code	Tariff Normal (TN)
Warranty Procedure	DIAGNOSTIC

***Public price Exl. Tax : €449**
