R12/R134a valve core remover

Reference : AC 4048

Item name	R12/R134a valve core remover
Bar code	3700461410758
Introduction	Universal valve core remover for R12, R134a, and R1234yf air conditioning systems. Allows valve cores to be screwed on and off during maintenance operations.
Text	The AC 4048 is a bi-material pocket tool, specifically developed to meet the dimensional constraints of climatic load valves on light and commercial vehicles. Total compatibility (Tri-Gas): Designed to handle valve cores from old (R12), standard (R134a) and new-generation (R1234yf) circuits, guaranteeing a long-lasting investment for the workshop. Double Precision Cavity: Equipped with two separate heads to adapt perfectly to different valve core diameters (standard and large), avoiding damaging or breaking the valve's internal mechanism. Grip-Control" ergonomics: Knurled Aluminum body or high-grip coating for precise handling, even with compressor-oil-soiled gloves. Robust, antistatic design: materials resistant to chemical agents and extreme temperature variations when purging circuits. Pen with Clip format: Easy to store in a pocket or charging station organizer, for immediate availability when connecting couplers.

Product highlight	Multi-gas tool for air conditioning maintenance
Specifications	Specifications: - 1 side: Ø6 mm, depth 20 mm - 1 stepped side: Ø4 mm, effective depth 15 mm (total depth 23 mm)
Warranty period	2 years
Tariff code	Tariff Normal (TN)
Warranty Procedure	EASY
